

Flipping is fun

Develop student talents through flipped learning

Don't leave a student behind

Researchers in 30 different studies compared student learning in traditional classrooms to learning in flipped classrooms.

Around half reported that students in the flipped classroom outperformed their counterparts in the traditional classrooms.

Are your students missing out by not using flipped learning in your classroom? If so, Flipping First is for your school. Flipping First is the Erasmus+ project that trains teachers to prepare and deliver their

own flipped learning classes.

The Flipping First project team has developed a how to flip your classroom covering more than the basics of how to flip your classroom as well as lots of top tips and techniques. Check our Flipping Manual, and you will get the key points on how to implement the methodology in your class in an easy way.

You will not need anything else as we can provide you with the platform for it, and eLearning platform working together with an ePortfolio facility.

Changing methodology and changing evaluation.

But Flipping First is not only about teachers, we have created videos and courses about Entrepreneurship and Tourism, so that you can implement them right away. You will have the videos for the content, but also activities to work out in your class.

Don't wait any more. Places on the Erasmus+ sponsored course are limited to just five schools per country, so contact your national partner for details today!

And start to Flip it!

FREE flipping resources for your classroom

For entrepreneurship and tourism

Thanks to our Erasmus+ funded project, you can learn how to create your own flipped classroom lessons.

You can also use our prepared flipping resources to deliver lessons in entrepreneurship and tourism simply by contacting your local national partner. Within days you will be 'up and running' with flipped learning and seeing the impact on your student's motivation and achievements.

The partners

SZAMALK-Salesian Post Secondary School

Our school has about 700 full-time and approximately 200 part-time students. We offer 19 training programmes, all of them are of advanced level vocational qualifications. The average age of our students is between 18 and 22. Our profile includes information technology, arts, tourism, pedagogy and business administration.

Our school regularly takes part in pedagogical developments and the results are constantly being integrated into our everyday's work. Our top priority is to provide a learning environment, in which tools and possibilities are available to improve the students' foreign language competencies and professional skills. Besides studying, it is also important to enrich our students' human values and professional knowledge.
